CLAIMS 19-23, 26-30 AND 37-66 ARE PENDING

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In **claim 26**, after "structure" and prior to "comprising in line 1, the phrase:

--, embodied on a computer-readable medium, for storing structured information about an object, the database structure--
is inserted.

On line 3, after "field" and prior to the period, the phrase:

--whereby the structured information about the object is made accessible to a user-- is inserted.

Authorization for this examiner's amendment was given in a telephone interview with Michael B. Ray on 10 March 2005.

2. The following is an examiner's statement of reasons for allowance:

Some of the elements of the claims were well known at the time of the invention, as exemplified at least in part by Bugajski, US 5,592,667.

With respect to independent claims 19-23 and 26 Bugajski places both structured and unstructured objects into a structure in the form of a search tree associated with concepts and/or categories [FIG 1; COL 2 lines 42-66; COL 9 lines 28-43].

Art Unit: 2161

The source of data may be a relational database, but the system does not create a relational database structure per se [COL 8 line 51 to COL 9 line 7], it creates a hierarchy.

In particular, it does not create a structure comprising a relational database table having a global seed concept ID field, a seed concept text field, and a created date field.

As to independent claims 37, 47 and 60 Bugajski teaches the storage of frequency of occurrence at nodes in the tree, but does not expand concepts into concept groupings for an unstructured object, comprising a seed concept and at least one related concept, and apply probabilistic analysis to identify relevant concept groupings wherein the seed concept of each relevant concept grouping is a key concept of the unstructured object, whereby at least one key concept is assigned to represent the unstructured object.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wayne Amsbury whose telephone number is 571-272-4015. The examiner can normally be reached on M-F 6-18:30 FIRST WEEK.
